

Medicine, Culture and Religion

Live Kidney Transplantation in Pakistan

Free lecture and book signing by

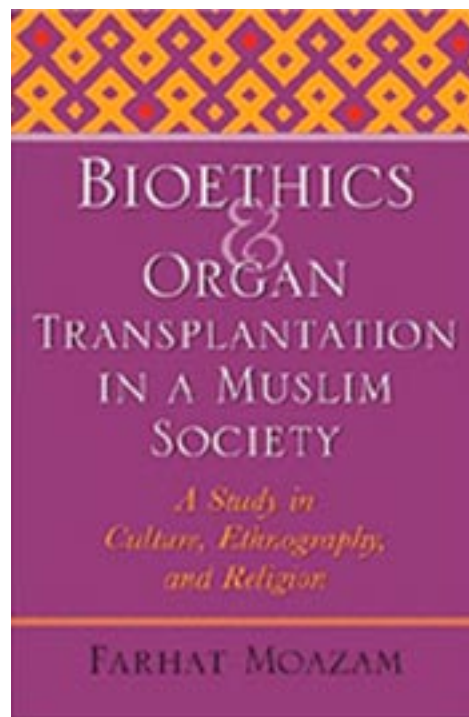

Dr. Farhat Moazam

**Chair, Centre of Biomedical Ethics and Culture,
Sindh Institute of Urology and Transplantation,
Karachi, Pakistan**

**Oct. 24, 2007
12 noon**

**Monsanto Auditorium,
Bond Life Sciences
Center
University of
Missouri-Columbia**

Moazam works with the World Health Organization. She speaks internationally on research, bio- and transplantation ethics, organ trade and international guidelines for tissue and organ transplantation.

A pediatric surgeon, she is an Institute of Practical Ethics fellow and visiting professor at University of Virginia's Centre for Humanism in Medicine. She has an M.A. in bioethics and Ph.D. in religious studies, focusing on Islam and cross-cultural ethics. Her book is an ethnographic study of kidney donations in Pakistan and the cultural, ethical and family conflicts that accompany them.
